COLLEGE GAME RECAP
OCTOBER 15, 2026
EXHIBITION
CERTIFIED GAME RECORD

Alabama vs Ole Miss

ALABAMA **92**

OLE MISS **84**

WHY IT'S CALLED THE POSSESSION REPORT

This is not a box score. A box score adds the game up. This report breaks it down **possession by possession.**

EVERY TRIP COUNTED
A possession runs from the moment a team gets the ball until the other team gets it. An offensive rebound keeps the same possession.

EVERY TRIP FOLLOWED
How each possession started, what was tried, how it ended and how many points it produced.

WON OR LOST
A team wins a possession by scoring on it, or by holding the other team scoreless on theirs.

EVERY PLAYER GRADED
PBiR grades each player's own actions on those possessions — not just the points scored.

READ IT IN ORDER

1 Who won the possessions **2** Who produced them **3** What decided the game **4** What to do next

Alabama won more possessions, 81 to 80.

WHAT HAPPENED	ALABAMA	OLE MISS
Final score	92	84
Possessions times the team had the ball	81	80
Scoring possessions possessions that produced points	42	41
Stops defensive possessions that held the other team scoreless	39	39
Possessions won scoring possessions plus stops	81	80
Points per possession average points each time it had the ball	1.14	1.05
Team PBiR all of its players' PBiR combined	+66	+71

AT A GLANCE

THE GAME IN FOUR FINDINGS.

1 THE POSSESSIONS

ALABAMA	81
OLE MISS	80

- Alabama won **81**: 42 by scoring, 39 by holding Ole Miss scoreless.
- Ole Miss won **80**: 41 by scoring, 39 by holding Alabama scoreless.

2 POINTS EACH TIME IT HAD THE BALL

ALABAMA	1.14
OLE MISS	1.05

- Alabama: **1.14** points each time it had the ball (92 points, 81 possessions).
- Ole Miss: **1.05** (84 points, 80 possessions).

3 THE PLAYERS · PBiR

- Alabama's players combined for **+66**; Ole Miss's for **+71**.
- Kyron Ashby led Alabama at **+21** — defensive rebounds were his strongest area; Jace Wolfe of Ole Miss graded highest in the game at +32.

4 WHERE THE 8-POINT MARGIN CAME FROM

After a turnover	−14
After a missed shot	+14
After a made basket or free throw	+8

PART 1 · THE COACHING RECAP

ALABAMA WON THE POSSESSIONS IN THE 2ND HALF; OLE MISS IN THE 1ST HALF.

When the possessions were won, half by half, and what each team's possessions turned into.

POSSESSIONS WON, HALF BY HALF

1ST HALF · POSSESSIONS WON

ALABAMA	38
OLE MISS	42

- Ole Miss by **4**. Points per possession: Alabama **1.05**, Ole Miss **0.98**.

2ND HALF · POSSESSIONS WON

ALABAMA	43
OLE MISS	38

- Alabama by **5**. Points per possession: Alabama **1.22**, Ole Miss **1.13**.

WHAT THE POSSESSIONS TURNED INTO

	ALABAMA	OLE MISS
Scoring possessions share of its own possessions that produced points	42 of 81 (52%)	41 of 80 (51%)
Empty possessions its own possessions with no points	39 (48%)	39 (49%)
Stops the other team's possessions held scoreless	39 of 80 (49%)	39 of 81 (48%)
Second chances possessions kept alive by an offensive rebound	10 (20 pts)	8 (10 pts)
Given away possessions that ended in a turnover	20 (12 on steals)	10 (4 on steals)

THE FINDING

- Alabama won the possessions in the 2nd half, 43 to 38.
- Ole Miss won the possessions in the 1st half, 42 to 38.

THE EVIDENCE

- The biggest swing was the 2nd half: Alabama by 5.
- Alabama scored on 52% of its possessions; Ole Miss on 51%.
- Alabama gave the ball away 20 times; Ole Miss 10.

WHAT IT MEANS

- The possession battle went back and forth.
- Find what changed between the halves — lineups, pace, turnovers — in the pages that follow.

WHAT TO DO

Fix the possessions after a turnover: Ole Miss scored 1.15 per possession there on 20 possessions, Alabama 0.90 on 10.

PART 1 · THE COACHING RECAP

ALABAMA WON 92–84. ALABAMA'S PLAYERS +66 PBIR, OLE MISS'S +71.

PBiR grades every basketball action a player makes and puts it on one scale. Team PBiR is all of a team's players together. Beside each grade: the possessions the team won while he was on the floor — the grade is his, the possessions are the team's.

THE BIGGEST PBIR FINDING

Kyron Ashby led Alabama in both points and individual PBiR (19 points, +21).

PLAYER	POINTS	PBiR	PER POSS IN ON	TEAM WON WITH HIM ON	STRONGEST GRADED AREA
Kyron Ashby	19	+21	+0.81	59 of 123	defensive rebounds
Gage Fairley	11	+19	+0.83	53 of 102	defensive rebounds
Wade Corby	18	+19	+0.95	51 of 111	made threes

Per poss in on: his PBiR ÷ the possessions he was in on (* under 10). Team won with him on: of both teams' possessions while he played, how many his team won.

WHAT PBIR SAW BEYOND THE SCORING COLUMN

Torian Bascomb graded −10 while Alabama was +20 in his 23 minutes: his own actions and the scoreboard around him point different ways.

The bench produced +6 of Alabama's +66 team PBiR, at a lower rate per player-minute than the starters (+0.07 to +0.53).

Torian Bascomb scored 12 points but graded −10 — turnovers cost him the most.

THE POSSESSIONS AND THE SCOREBOARD

Alabama won 81 of the 161 possessions (Ole Miss 80) and scored 1.14 points per possession to 1.05. Alabama defeated Ole Miss 92–84 after building a 42–39 halftime lead. It won the second half 50–45, led by as many as 18 and remained ahead for 77% of the game.

WHAT TO EXAMINE NEXT

- Kyron Ashby's grade: his defensive rebounds and the game situations that produced them.
- Torian Bascomb: whether the minutes around him explain the gap between the individual grade and the team margin.
- The 2 players who graded below zero: Kendric Oyewole (−11, turnovers); Torian Bascomb (−10, turnovers).

PART 1 · THE COACHING RECAP

OLE MISS SCORED 23 POINTS OFF ALABAMA TURNOVERS; ALABAMA SCORED 9 OFF OLE MISS'S.

> What decided the game: every possession starts after a turnover, a missed shot, a made basket (the defense set) or at the start of a half. The points from each kind of start add up exactly to the final score.

POINTS BY HOW THE POSSESSION STARTED · ADDS TO THE FINAL SCORE

HOW THE POSSESSION STARTED	ALABAMA	OLE MISS	EDGE
After a turnover (steal or dead ball)	**9** on 10 · 0.90 each	**23** on 20 · 1.15 each	**−14**
After a missed shot	**36** on 31 · 1.16 each	**22** on 19 · 1.16 each	**+14**
After a made basket or free throw · the defense set	**47** on 38 · 1.24 each	**39** on 41 · 0.95 each	**+8**
Start of a period or other	**0** on 2* · 0.00 each	**0** on 0* · —	**0***
ALL POSSESSIONS · THE FINAL SCORE	**92** on 81	**84** on 80	**+8**

* fewer than 10 possessions — too few to read as a pattern. Green and red follow points per possession.

THE POSSESSION INGREDIENTS	ALABAMA	OLE MISS
Possessions given away (turnovers)	20 of 81	10 of 80
Second chances (offensive rebounds) → points	10 → 20	8 → 10
Scoring possessions	42 (52%)	41 (51%)
Longest run of stops	4	6

THE FINDING

The biggest possession edge came after a turnover (steal or dead ball): Alabama 9 points on 10 possessions, Ole Miss 23 on 20 (+14 for Ole Miss).

THE EVIDENCE

- Alabama gave the ball away on 20 of 81 possessions and Ole Miss on 10 of 80.
- Second chances: 10 for Alabama (20 points), 8 for Ole Miss (10).
- Alabama scored on 52% of its possessions, Ole Miss on 51%.

WHAT IT MEANS

- Points after turnovers and misses come before the defense is set; points after a made basket come against it.
- The table shows which kind built the 8-point win.

WHAT TO DO

- Cut down the possessions that gave Ole Miss its edge: after a turnover (steal or dead ball).
- The possession log lists every one of them with the game clock for film.

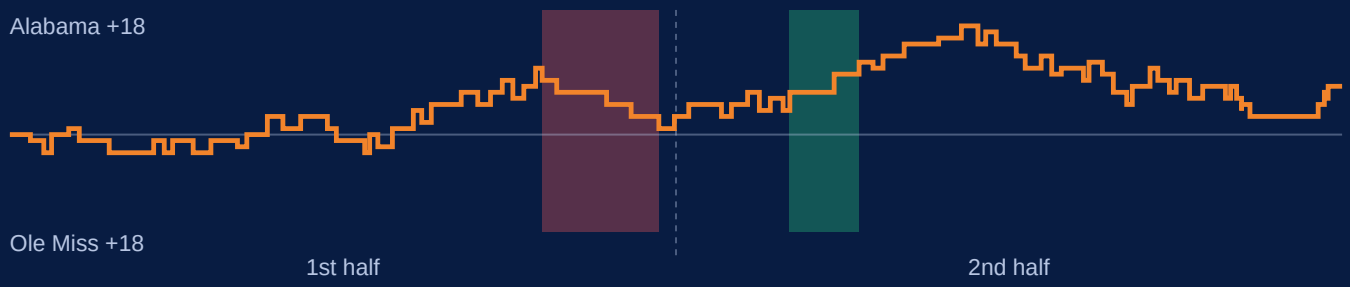

PART 1 · THE COACHING RECAP

OLE MISS'S 10–0 RUN WAS THE GAME'S BIGGEST.

The line is the score margin through the game: above the middle, Alabama leads; below, Ole Miss leads. Shaded bands are scoring runs of eight or more unanswered points (green Alabama, red Ole Miss).

77%	+18	5	2
ALABAMA IN FRONT	**LARGEST LEAD**	**LEAD CHANGES**	**RUNS OF 8+**
Ole Miss 18%	Ole Miss's largest: +3	3 ties after a basket	1 Alabama, 1 Ole Miss

MARGIN THROUGH THE GAME

SCORING RUNS · EIGHT OR MORE UNANSWERED POINTS

TEAM	RUN	SCORE GOING IN	SCORE COMING OUT	WHEN (GAME CLOCK)	POSSESSIONS IN THE RUN
Ole Miss	10–0	Alabama 40 Ole Miss 29	Alabama 40 Ole Miss 39	1st half, 4:01 to 0:31 left	5 scores, 6 stops
Alabama	8–0	Alabama 50 Ole Miss 46	Alabama 58 Ole Miss 46	2nd half, 16:35 to 14:30 left	3 scores, 3 stops

GAME FLOW · CONTINUED

FIVE-MINUTE STRETCHES · SCORE AND POSSESSIONS WON IN EACH

	1st 0–5	1st 5–10	1st 10–15	1st 15–20	2nd 0–5	2nd 5–10	2nd 10–15	2nd 15–20
ALABAMA	8	9	18	7	14	11	12	13
OLE MISS	9	9	8	13	7	6	20	12
MARGIN	−1	0	+10	−6	+7	+5	−8	+1
ALABAMA POSSESSIONS WON	7	9	15	7	10	12	8	13
OLE MISS POSSESSIONS WON	10	11	9	12	5	6	15	12

STREAKS · CONSECUTIVE POSSESSIONS

	ALABAMA	OLE MISS
Stops in a row	4 1st half, 7:21 to 6:17	6 1st half, 4:01 to 1:00
Scoring possessions in a row	5 2nd half, 19:49 to 16:35	5 2nd half, 9:02 to 6:28
Empty possessions in a row	6 1st half, 4:01 to 1:00	4 1st half, 7:21 to 6:17

THE FINDING

- The biggest run was Ole Miss's 10–0, from 40–29 to 40–39 (1st half, 4:01 to 0:31 left).
- Alabama led for 77% of the game.

THE EVIDENCE

- In possessions won, Alabama took four of the eight five-minute stretches, Ole Miss four.
- On the scoreboard it won four of them and lost three.
- Longest run of stops: 4 for Alabama, 6 for Ole Miss.
- Longest run of empty possessions: 6 for Alabama, 4 for Ole Miss.

WHAT IT MEANS

- A run is a string of scoring possessions on one end and stops on the other.
- Stretches won in possessions show when a team controlled the game, not just when the ball went in.

WHAT TO DO

- Film Alabama's six empty possessions in a row (1st half, 4:01 to 1:00): who was on the floor and how each one ended.
- Alabama lost the 2nd half, minutes 10–15: Ole Miss 20, Alabama 12.
- The lineups page shows which fives played.

PART 1 · THE COACHING RECAP

ALABAMA SCORED ON 42 OF 81 POSSESSIONS: 1.14 POINTS EACH TIME IT HAD THE BALL.

How Alabama used its 81 possessions: what each one produced, what happened inside them, and how the way a possession started changed what it was worth. Then the points and the shots behind them. A possession is counted once however many shots it held.

1.14	52%	25%	58.9%
ALABAMA POINTS PER POSSESSION	**POSSESSIONS THAT SCORED**	**POSSESSIONS GIVEN AWAY**	**EFFECTIVE FG%**
92 points on 81 possessions · Ole Miss 1.05	42 of 81 · Ole Miss 51%	20 turnovers in 81 possessions	31 of 62; 11 of 32 from three

WHAT ALABAMA'S POSSESSIONS PRODUCED

	ALABAMA
No points	39 (48%)
1 point	4 (5%)
2 points	26 (32%)
3 or more	12 (15%)

INSIDE THE POSSESSIONS

	ALABAMA
Scored	42 (52%)
Took at least one three	28 (35%)
Took twos only	21 (26%)
Went to the free-throw line	14 (17%)
Got a second chance	10 (12%)
Ended in a turnover	20 (25%)
No shot or free throw	20 (25%)

POINTS PER POSSESSION · BY HOW IT STARTED

HOW THE POSSESSION STARTED	POSS	SCORED	PTS	PTS/POSS
After a missed shot	31	16	36	**1.16**
After a steal	4	2	4	**1.00***
After a dead-ball turnover	6	3	5	**0.83***

First shot	**1.01** on 71
After an offensive rebound	**2.00** on 10
Out of a timeout	**0.67*** on 3
Average possession	12.8 sec

* fewer than 10 possessions — too few to read as a pattern.

OFFENSE · CONTINUED

PLAYERS WHOSE STRONGEST PBIR CONTRIBUTION WAS OFFENSIVE · TOP FOUR

PLAYER	PBiR	MIN	PTS	STRONGEST OFFENSIVE AREA	COST THE MOST
Wade Corby	+19	29	18	made threes	missed threes
Darrious Harper-Lowden	+18	19	12	made twos	turnovers
Easton Rowland	+8	26	13	made threes	missed threes
Dashawn Mortimer	+2	20	2	assists	turnovers

Ranked by individual PBiR, which is each player's complete game grade. The strongest contribution is the offensive action (made shots, free throws, assists, offensive rebounds) that added the most to it.

WHERE ALABAMA'S POINTS CAME FROM

HOW THE POINTS WERE SCORED	POINTS	SHARE	MADE OF TRIED
Twos	40	43%	20 of 30
Threes	33	36%	11 of 32
Free throws	19	21%	19 of 25
TOTAL	**92**	**100%**	

SCORING OPPORTUNITIES · THESE OVERLAP	POINTS	SHARE OF ALL POINTS
In the paint	40	43%
Fast break	18	20%
Second chance	20	22%
Off turnovers	9	10%

THE FINDING

- Alabama scored on 42 of its 81 possessions (52%) and averaged 1.14 points each time it had the ball.
- Ole Miss averaged 1.05.

THE EVIDENCE

- Best start: after a made basket, 1.28 per possession on 29.
- Least productive start: after a missed shot, 1.16 on 31.
- Alabama took at least one three on 35% of its possessions and made 11 of 32 threes.
- 10 possessions got a second chance, worth 20 points.
- Alabama gave the ball away on 20 possessions.

WHAT IT MEANS

- Points per possession counts every trip, made or missed, turnover or free throws.
- How a possession started tells whether the points came before the defense was set or against it.

WHAT TO DO

- Film the 31 possessions after a missed shot; the possession log lists each one with the game clock.
- Cut the turnovers: 20 possessions given away.

PART 1 · THE COACHING RECAP

ALABAMA STOPPED OLE MISS ON 39 OF 80 POSSESSIONS: OLE MISS 1.05 POINTS EACH TIME IT HAD THE BALL.

Alabama's defense, possession by possession: how often it got a stop, allowed no second shot, forced a turnover or fouled — and what Ole Miss scored depending on how its possession started. Then where Ole Miss's points came from. Which defensive actions produced each result is a film question.

49%	1.05	90%	13%
ALABAMA STOPS	**OLE MISS POINTS PER POSSESSION**	**NO SECOND SHOT**	**TURNOVERS FORCED**
39 of Ole Miss's 80 possessions held to 0	84 points on 80 possessions	72 of 80 possessions	10 possessions, 4 on steals

ALABAMA'S DEFENSE · OLE MISS'S 80 POSSESSIONS

	ALABAMA
Stop (no points)	39 (49%)
No second shot (one shot or none)	72 (90%)
Held to a point or less	43 (54%)
Forced a turnover	10 (13%)
On a steal	4 (5%)
Gave up an offensive rebound	8 (10%)
Fouled	15 (19%)

FOULS BY ALABAMA

	ALABAMA
Fouls committed	22
Sent the other team to the line	12
No free throws	6
Offensive fouls	4

OLE MISS'S POINTS PER POSSESSION · BY HOW IT STARTED

HOW THE POSSESSION STARTED	POSS	SCORED	PTS	PTS/POSS
After a missed shot	19	11	22	**1.16**
After a steal	12	9	17	**1.42**
After a dead-ball turnover	8	3	6	**0.75***
After a made basket	29	11	24	**0.83**
After a made free throw	12	7	15	**1.25**

* fewer than 10 possessions — too few to read as a pattern.

After an Alabama miss or turnover the defense may not be set; after a made basket it is.

DEFENSE · CONTINUED

WHERE OLE MISS'S POINTS CAME FROM

HOW THE POINTS WERE SCORED	POINTS	SHARE	MADE OF TRIED
Twos	54	64%	27 of 47
Threes	12	14%	4 of 20
Free throws	18	21%	18 of 24
TOTAL	**84**	**100%**	

SCORING OPPORTUNITIES · THESE OVERLAP	POINTS	SHARE OF ALL POINTS
In the paint	44	52%
Fast break	19	23%
Second chance	10	12%
Off turnovers	23	27%

PLAYERS WHOSE STRONGEST PBIR CONTRIBUTION WAS DEFENSIVE · TOP TWO

PLAYER	PBiR	MIN	PTS	STRONGEST DEFENSIVE AREA	COST THE MOST
Kyron Ashby	+21	31	19	defensive rebounds	missed threes
Gage Fairley	+19	25	11	defensive rebounds	missed threes

Each PBiR shown is the player's complete game grade; the strongest contribution is the defensive action (steals, blocks, defensive rebounds) that added the most to it. There is no separate defensive grade.

THE FINDING

- Alabama got a stop on 39 of Ole Miss's 80 possessions (49%).
- Ole Miss averaged 1.05 points each time it had the ball.

THE EVIDENCE

- Alabama allowed Ole Miss no second shot on 90% of its possessions and forced a turnover on 10.
- Alabama fouled on 15 possessions; 12 fouls sent Ole Miss to the line, where it scored 18 of its 84 points.
- Ole Miss was most productive after a steal (1.42 on 12) and least after a made basket (0.83 on 29).

WHAT IT MEANS

- A stop ends the other team's possession with nothing; one shot and done means no second chance.
- The record shows what Ole Miss did, not why: film shows which defensive actions produced it.

WHAT TO DO

Film Ole Miss's 12 possessions after a steal: 1.42 points each.

PART 1 · THE COACHING RECAP

ALABAMA WON THE GLASS, 45 TO 28. ALABAMA KEPT 10 POSSESSIONS ALIVE FOR 20 POINTS.

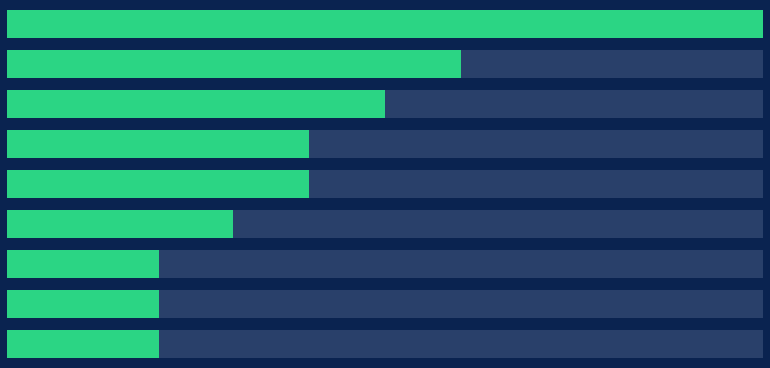

Each bar is one player's total rebounds; the numbers at the right are offensive / defensive. Offensive % is the share of its own missed shots Alabama got back.

POSSESSIONS EXTENDED AND FINISHED

	ALABAMA
Possessions extended · got a second chance (offensive rebound)	10 of 81 (12%)
Points on those second-chance possessions	20
Other team's possessions finished with an Alabama rebound	31 of 80
Other team's possessions extended (second chances allowed)	8 → 10 points

45	14	31	10
TOTAL REBOUNDS	**OFFENSIVE**	**DEFENSIVE**	**MOST · FAIRLEY**
28 for the other team	42.4% of its own misses	77.5% of the other team's misses	2 offensive, 8 defensive

REBOUNDS BY PLAYER · TOTAL, THEN OFFENSIVE / DEFENSIVE

REBOUNDING · CONTINUED

REBOUNDING BY HALF

HALF	OFFENSIVE	DEFENSIVE	TOTAL	OFFENSIVE %	DEFENSIVE %
1st	9	15	**24**	45.0%	83.3%
2nd	5	16	**21**	38.5%	72.7%
GAME	**14**	**31**	**45**	**42.4%**	**77.5%**

THE FINDING

- Gage Fairley led with 10 rebounds.
- PBiR from the glass: Kyron Ashby +21 (defensive rebounds) and Gage Fairley +19 (defensive rebounds).
- Alabama got back 42.4% of its own misses and 77.5% of the other team’s.

THE EVIDENCE

- Alabama won the glass by 17.
- Offensive rebounds kept 10 possessions alive, worth 20 points.
- Its offensive rebounding was lowest in the 2nd half (38.5%) and highest in the 1st half (45.0%).

WHAT IT MEANS

- Each rebound is one possession kept or taken away; the second-chance points show what the offensive ones were worth.
- A rebound total is a count; the PBiR line above says whose graded value leaned on the glass.

WHAT TO DO

In the 2nd half, Alabama got back only 72.7% of the other team’s misses: who was on the floor, and which misses were lost.

PART 1 · THE COACHING RECAP

ALABAMA 92, OLE MISS 84: HALF BY HALF.

Both teams, half by half: where the points came from and how each team shot. Twos, threes and free throws add up to the points; paint, fast break, second chance and off turnovers overlap, so they do not. A dash marks a by-half figure that could not be verified against the game total; the game total stands.

POINTS BY HALF, BY SOURCE

TEAM	HALF	POINTS	TWOS	THREES	FREE THROWS	PAINT	FAST BREAK	2ND CHANCE	OFF TURNOVERS
ALABAMA	1st	42	18	18	6	18	10	12	2
	2nd	50	22	15	13	22	8	8	7
ALABAMA	GAME	92	40	33	19	40	18	20	9
OLE MISS	1st	39	32	0	7	24	7	4	15
	2nd	45	22	12	11	20	12	6	8
OLE MISS	GAME	84	54	12	18	44	19	10	23

SHOOTING BY HALF

TEAM	HALF	FIELD GOALS	TWOS	THREES	FREE THROWS	EFFECTIVE FG%
ALABAMA	1st	15/33	9/14	6/19	6/9	54.5%
	2nd	16/29	11/16	5/13	13/16	63.8%
OLE MISS	1st	16/32	16/23	0/9	7/11	50.0%
	2nd	15/35	11/24	4/11	11/13	48.6%

THE FINDING

- Alabama scored 42 in the 1st half, 50 in the 2nd half; Ole Miss 39 in the 1st half, 45 in the 2nd half.
- Points per possession: Alabama 1.05 in the 1st half, 1.22 in the 2nd half; Ole Miss 0.98 in the 1st half, 1.13 in the 2nd half.

THE EVIDENCE

- The widest half was the 2nd, Alabama by 5.
- Alabama’s effective FG% went from 54.5% in the 1st half to 63.8% in the 2nd half.
- Its highest-scoring half was the 2nd (50), with 15 points from threes and 13 from the line.

WHAT IT MEANS

Half by half shows whether a team kept its offense going or changed it after the break, and whether the points came the same way in each half.

WHAT TO DO

Look at the 2nd half: the key-lineups page shows which fives played, and the game-flow page shows where in the half the margin moved.

PART 1 · THE COACHING RECAP

KYRON ASHBY LED IN POINTS AND VALUE.

Ranked by **individual PBiR** — what he did himself. **Team margin** is the scoreboard while he was on the floor, shared by all five. Helped / hurt most: what added or cost the most (words, not points). Full explanation: Reference.

+21 **MOST VALUABLE · ASHBY** 19 points, 1st in scoring	**+66** **TEAM PBiR** six above zero, two below, one at zero	**92** **POINTS** 31 of 62 from the field	**+20** **BEST TEAM MARGIN WHILE PLAYING · BASCOMB** in his 23 minutes (players with 10+ minutes)

EVERY PLAYER, RANKED BY INDIVIDUAL PBIR

#	PLAYER	PBiR	PER POSS IN ON	PER MIN	MIN	PTS	POSS IN ON	TEAM WON / POSS ON	HELPED MOST	HURT MOST
1	**Kyron Ashby**	+21	+0.81	+0.68	31	19	26	59/123	defensive rebounds	missed threes
T2	**Gage Fairley**	+19	+0.83	+0.76	25	11	23	53/102	defensive rebounds	missed threes
T2	**Wade Corby**	+19	+0.95	+0.66	29	18	20	51/111	made threes	missed threes
4	**Darrious Harper-Lowden**	+18	+1.50	+0.95	19	12	12	37/77	made twos	turnovers
5	**Easton Rowland**	+8	+0.50	+0.31	26	13	16	55/108	made threes and defensive rebounds	missed threes

Per poss in on: his PBiR divided by the possessions the play-by-play records him in (poss in on; * under 10). Team won / poss on: of both teams' possessions while he was on the floor, how many his team won — a team result, not his grade.

EVERY PLAYER, RANKED BY INDIVIDUAL PBIR · CONTINUED

#	PLAYER	PBiR	PER POSS IN ON	PER MIN	MIN	PTS	POSS IN ON	TEAM WON / POSS ON	HELPED MOST	HURT MOST
6	Dashawn Mortimer	+2	+0.15	+0.10	20	2	13	35/73	assists	turnovers
7	Cedric Boyce	0	0.00	0.00	14	5	16	29/58	defensive rebounds	turnovers
8	Torian Bascomb	−10	−0.43	−0.43	23	12	23	55/97	made threes, offensive rebounds and defensive rebounds	turnovers
9	Kendric Oyewole	−11	−1.22*	−0.85	13	0	9	31/56	defensive rebounds	turnovers
	TEAM	+66				92		81/161		

Per poss in on: his PBiR divided by the possessions the play-by-play records him in (poss in on; * under 10). Team won / poss on: of both teams' possessions while he was on the floor, how many his team won — a team result, not his grade.

THE FINDING

- Kyron Ashby led Alabama at +21.
- He was also the top scorer.

THE EVIDENCE

Kyron Ashby led both points and value, so the scoring order and the value order agree at the top.

WHAT IT MEANS

- Team PBiR +66 was built by six players above zero against two below.
- A total carried by many positive grades and a total carried by one or two players are different teams to coach, even at the same number.

WHAT TO DO

- Kyron Ashby: individual PBiR +21, team margin while playing −3; Wade Corby: individual PBiR +19, team margin while playing −3; Torian Bascomb: individual PBiR −10, team margin while playing +20; Kendric Oyewole: individual PBiR −11, team margin while playing +15.
- The two numbers measure different things.

PART 1 · THE COACHING RECAP

KYRON ASHBY WAS IN ON THE MOST POSSESSIONS: 26. DARRIOUS HARPER-LOWDEN PRODUCED THE MOST EACH TIME: +1.50 PBIR PER POSSESSION.

Alabama's players, by the possessions the play-by-play puts them in — like carries: how many he had a hand in, and what he did with them. The team's result on those possessions is beside it.

KYRON ASHBY

- Recorded actions on **26** of the 123 possessions he was on the floor for.
- Offense: in on 20, the team scored on 14 (70%); 15 ended on his shot, free throws or turnover.
- Defense: in on 6, 6 ended scoreless (100%*).
- What he did: 5 made baskets (2 threes), 7 made free throws, 5 assists, 6 defensive rebounds, 2 turnovers.
- PBiR **+21** on 26 possessions = **+0.81** each.

GAGE FAIRLEY

- Recorded actions on **23** of the 102 possessions he was on the floor for.
- Offense: in on 14, the team scored on 8 (57%); 12 ended on his shot, free throws or turnover.
- Defense: in on 9, 9 ended scoreless (100%*).
- What he did: 4 made baskets (1 three), 2 made free throws, 2 assists, 2 offensive rebounds, 8 defensive rebounds, 1 steal, 1 turnover, 1 foul.
- PBiR **+19** on 23 possessions = **+0.83** each.

TORIAN BASCOMB

- Recorded actions on **23** of the 97 possessions he was on the floor for.
- Offense: in on 18, the team scored on 8 (44%); 17 ended on his shot, free throws or turnover.
- Defense: in on 5, 3 ended scoreless (60%*).
- What he did: 4 made baskets (2 threes), 2 made free throws, 1 assist, 2 offensive rebounds, 3 defensive rebounds, 5 turnovers, 3 fouls.
- PBiR **−10** on 23 possessions = **−0.43** each.

WADE CORBY

- Recorded actions on **20** of the 111 possessions he was on the floor for.
- Offense: in on 15, the team scored on 13 (87%); 11 ended on his shot, free throws or turnover.
- Defense: in on 5, 3 ended scoreless (60%*).
- What he did: 5 made baskets (4 threes), 4 made free throws, 4 assists, 1 offensive rebound, 1 defensive rebound, 1 steal, 3 fouls.
- PBiR **+19** on 20 possessions = **+0.95** each.

* fewer than 10 possessions — too few to read as a pattern.

PLAYER POSSESSIONS · CONTINUED

EVERY PLAYER · POSSESSIONS INVOLVED, MOST FIRST

PLAYER	ON THE FLOOR OFF · DEF	OFFENSE INVOLVED	OFFENSE USED	TEAM SCORED	DEFENSE INVOLVED	TEAM STOP	PBiR	PBiR PER POSSESSION
Kyron Ashby	62 · 61	**26**	20	15	14 (70%)	6	6 (100%)*	+21	+0.81

Darrious Harper-Lowden	39 · 38	**12**	9	8	8 (89%)*	3	0 (0%)*	+18	+1.50
Kendric Oyewole	29 · 27	**9**	6	5	2 (33%)*	3	2 (67%)*	−11	−1.22*

Involved: possessions in which the official play-by-play records an action by him (a shot, free throw, assist, rebound, steal, block, turnover or foul), each counted once. Used: possessions that ended on his shot, free-throw trip or turnover. Team scored / stop: the team's result on the possessions he was part of — not his personal credit. Passes that are not assists, screens and box-outs are not in the record. PBiR per possession: his PBiR divided by the possessions he was involved in (graded value, not points). Headlines and findings name only players with 10 or more possessions.

* fewer than 10 possessions — too few to read as a pattern.

THE FINDING

- Kyron Ashby was in on 26 possessions, the most on Alabama.
- Torian Bascomb used the most: 17 ended on his shot, free throws or turnover.

THE EVIDENCE

- Darrious Harper-Lowden produced the most graded value per possession he was in: +1.50 (+18 PBiR on 12).
- The team scored most often with Wade Corby in the play: 87% of 15.

WHAT IT MEANS

- Being on the floor is not being in the play: these counts show who the game went through.
- Scored and stop rates are the team's result on those possessions, not what he caused.

WHAT TO DO

- Cut Kyron Ashby's 26 possessions from the game film; his card says what the play-by-play has him doing on them.
- Darrious Harper-Lowden produced the most each time — a case for more of his possessions.

PART 1 · THE COACHING RECAP

ALABAMA'S KEY FIVE-MAN LINEUPS. MOST-USED: −4 IN 6.5 MINUTES.

Alabama's five most-played lineups, most minutes first. Possessions won counts both teams' possessions with the five on the floor; points follow the five on the floor when a possession ended; margin is the scoreboard. Lineup PBiR is what those five did themselves together. Every Alabama lineup is in Part 2.

			ALABAMA		OLE MISS			
FIVE ON THE FLOOR	MIN	POSS WON	POINTS	PER POSS	POINTS	PER POSS	MARGIN	LINEUP PBiR
Harper-Lowden · Ashby · Rowland · Fairley · Corby most-used	6.5	**12** of 25	15	1.15	17	1.42	−4	+9
Ashby · Fairley · Mortimer · Bascomb · Corby	5.8	**9** of 22	6	0.60	10	0.83	−4	+2
Harper-Lowden · Boyce · Ashby · Mortimer · Corby best margin, 3+ min	3.2	**4** of 12	4	0.67	7	1.17	−3	−2
Boyce · Ashby · Rowland · Fairley · Corby short sample	2.6	**4** of 12	4	0.67	9	1.50	−5	−2
Harper-Lowden · Ashby · Rowland · Fairley · Bascomb short sample	2.6	**5** of 10	4	0.80	5	1.00	−1	+1

THE FINDING

- Alabama's most-used five (Harper-Lowden · Ashby · Rowland · Fairley · Corby) played 6.5 minutes and was outscored on its possessions 15–17.
- The best margin among lineups with three or more minutes was −3 (Harper-Lowden · Boyce · Ashby · Mortimer · Corby, 4–7 on its possessions in 3.2).

THE EVIDENCE

- PBiR: the most-used five graded +9 together, the highest of any lineup with three or more minutes.
- The most-used five also played the most possessions (25).
- Sixteen of Alabama's 19 lineups played under three minutes.

WHAT IT MEANS

- One game's margin does not establish which lineup is best.
- *Coaching read:* the five with the most possessions has the most evidence behind it; a large margin in few possessions is something to watch, not to conclude.

WHAT TO DO

- Harper-Lowden · Ashby · Rowland · Fairley · Corby: 15–17 on its possessions in 6.5 minutes — the longest-used lineup with a negative margin.
- Start the lineup film with Harper-Lowden · Ashby · Rowland · Fairley · Corby, the five that played the most possessions: it won 12 of 25 and scored 1.15 points per possession.
- The with-and-without page shows each player's on/off.

PART 1 · THE COACHING RECAP

ALABAMA'S BENCH: 36 POINTS, +6 PBIR.

Starters are the five who started for each team; the bench is everyone else who played. **Minutes are player-minutes:** five players are always on the floor, so the starters and bench share 200 in a 40-minute game. PBiR per minute lets the two groups be compared fairly, since a bench usually plays fewer minutes. **Possessions won** counts each player's possessions on the floor (player-possessions) and the share the team won while that group played.

ALABAMA

GROUP	PLAYERS	PLAYER-MINUTES	POINTS	PBiR	PBiR PER MIN	REB	AST	TO	POSS WON (PLAYER-POSS)
Starters	5	113	56	+60	+0.53	18	14	9	48% of 442
Bench	4	87	36	+6	+0.07	20	5	10	53% of 363

OLE MISS

GROUP	PLAYERS	PLAYER-MINUTES	POINTS	PBiR	PBiR PER MIN	REB	AST	TO	POSS WON (PLAYER-POSS)
Starters	5	141	50	+47	+0.33	22	10	7	51% of 557
Bench	5	59	34	+24	+0.41	5	0	2	47% of 248

THE FINDING

- Alabama's bench scored 36 of its 92 points (39%) in 87 player-minutes and graded +6 PBiR; the starters scored 56 in 113 and graded +60.
- Ole Miss's bench: 34 points, +24 PBiR.

THE EVIDENCE

- Per minute, the starters produced more PBiR than the bench in this game (+0.53 to +0.07).
- Gage Fairley carried the bench's highest grade, +19 in 25 minutes; Torian Bascomb and Kendric Oyewole graded below zero.

WHAT IT MEANS

- Per-minute rates compare the two groups fairly when their minutes differ.
- A bench that holds its grade per minute lets the staff rest starters without the game turning; a bench that does not tells the staff where the minutes got expensive.

WHAT TO DO

Check the bench players' rows on the board for what their grades were made of, and film the stretches the bench played together.

PART 1 · THE COACHING RECAP

ALABAMA: THE SCOREBOARD WITH AND WITHOUT EACH PLAYER.

ON is the team margin while that player was on the floor; OFF is the team margin while he sat; the last number is the difference. It is the raw scoreboard — not adjusted for minutes, teammates, opponents or pace (possessions are not counted) — and it is not a grade of the player. A player who sat while the starters built a lead shows a large negative difference for that reason alone; “short minutes” marks players under five minutes.

PLAYER	MIN ON	MARGIN ON	MIN OFF	MARGIN OFF	DIFFERENCE	POSS WON · ON / OFF
#5 Kyron Ashby	31.1	−3	8.9	+11	−14	48% / 58%
#33 Wade Corby	28.5	−3	11.5	+11	−14	46% / 60%
#6 Easton Rowland	25.6	+5	14.4	+3	+2	51% / 49%
#8 Gage Fairley	25.5	+3	14.5	+5	−2	52% / 47%
#11 Torian Bascomb	23.9	+20	16.1	−12	+32	57% / 41%
#9 Dashawn Mortimer	20.1	+2	19.9	+6	−4	48% / 52%
#00 Darrious Harper-Lowden	18.9	0	21.1	+8	−8	48% / 52%
#4 Cedric Boyce	13.9	+1	26.1	+7	−6	50% / 50%
#10 Kendric Oyewole	12.5	+15	27.5	−7	+22	55% / 48%

THE FINDING

Among players with 10+ listed minutes, the largest positive raw on/off difference was Torian Bascomb, +32 (23.9 minutes on); the largest negative was −14 each: Kyron Ashby (31.1 minutes on) and Wade Corby (28.5 minutes on).

THE EVIDENCE

- Three players had a positive raw on/off difference and six a negative one.
- For Torian Bascomb, Kendric Oyewole, Gage Fairley, Dashawn Mortimer, Darrious Harper-Lowden, Kyron Ashby and Wade Corby the on/off sign and the individual PBiR sign disagree — the scoreboard moved one way while their own PBiR pointed the other.

WHAT IT MEANS

- On/off is a team scoreboard comparison, not a player grade: it depends on teammates, opponents and game circumstances as much as on him.
- Individual PBiR describes what he did himself.
- Read them together; where they disagree is where film is most useful.

WHAT TO DO

For any player whose two signs disagree, the key-lineups page shows which fives he shared the floor with.

PART 1 · THE COACHING RECAP

WHAT WORKED. WHAT NEEDS ATTENTION. WHAT'S NEXT.

Read from the possessions first, with PBiR beside them. "From the record" lines are measured facts from this game; coaching reads are interpretation — starting points for film and staff judgment. Strengths are listed beside weaknesses in a win or a loss.

WHAT WORKED

- **Won the possession battle, 81–80.**
  From the record: 1.14 points per possession to 1.05; 39 stops on 80 Ole Miss possessions.
- **After a missed shot: Alabama +14 in points.**
  From the record: Alabama 36 on 31 possessions (1.16 each), Ole Miss 22 on 19 (1.16 each).
- **After a made basket or free throw: Alabama +8 in points.**
  From the record: Alabama 47 on 38 possessions (1.24 each), Ole Miss 39 on 41 (0.95 each).
- **Kyron Ashby led in PBiR, +21.**
  From the record: defensive rebounds were his strongest area; in on 26 possessions, +0.81 PBiR each; the team won 59 of 123 possessions while he played.
- **Four stops in a row.**
  From the record: 1st half, 7:21 to 6:17.

WHAT NEEDS ATTENTION

- **After a turnover (steal or dead ball), Ole Miss scored more per possession.**
  From the record: Ole Miss 1.15 on 20 possessions, Alabama 0.90 on 10.
- **Six empty possessions in a row.**
  From the record: 1st half, 4:01 to 1:00.
- **Turnovers on 25% of possessions.**
  From the record: 20 of 81; 12 on steals.

WHAT TO EXAMINE NEXT · COACHING READS, FOR STAFF JUDGMENT

- Film the 31 possessions after a missed shot: 1.16 points per possession against 1.28 after a made basket. The possession log lists them with the game clock.
- Where Ole Miss scored more per possession: after a turnover (1.15 to 0.90).
- The six empty possessions in a row (1st half, 4:01): who was on the floor and how each one ended.

CARRY INTO THE NEXT GAME

- **Keep creating the possessions behind the edge: after a missed shot.**
  Scouting the next opponent: who turns it over, who gives up second chances.
- **The five that won the highest share of its possessions (10 or more).**
  From the record: Harper-Lowden · Ashby · Rowland · Fairley · Bascomb: 5 of 10 (50%), 0.80 points per possession.

PART 2 · COMPLETE ANALYTICS

ALABAMA: EVERY PLAYER'S COMPLETE LINE.

Most minutes first. "5/15" means 5 made of 15 tried. Team margin while playing is the scoreboard while that player was on the floor. The team row can show more rebounds or turnovers than the players add up to: the game statistics credit some to the team, not a player (7 rebounds in this game).

SCORING AND SHOOTING

PLAYER	MIN	PTS	FIELD GOALS	TWOS	THREES	FREE THROWS	PAINT PTS	TEAM MARGIN WHILE PLAYING	POSS ON FLOOR
Kyron Ashby	31	**19**	5/10	3/5	2/5	7/8	6	−3	123

SHOOTING PERCENTAGES

PLAYER	FG%	2-PT%	3-PT%	FT%	EFFECTIVE FG%	FREE THROWS PER SHOT
Kyron Ashby	50.0%	60.0%	40.0%	87.5%	60.0%	0.80
Wade Corby	55.6%	100.0% · 1 of 1	50.0%	100.0%	77.8%	0.44
Easton Rowland	50.0%	100.0% · 2 of 2	33.3%	100.0%	62.5%	0.38
Gage Fairley	40.0%	60.0%	20.0%	66.7%	45.0%	0.30
Torian Bascomb	40.0%	40.0%	40.0%	40.0%	50.0%	0.50
Dashawn Mortimer	33.3%	50.0% · 1 of 2	0.0% · 0 of 1	–	33.3%	0.00
Darrious Harper-Lowden	85.7%	85.7%	–	–	85.7%	0.00
Cedric Boyce	50.0%	100.0% · 2 of 2	0.0% · 0 of 2	50.0% · 1 of 2	50.0%	0.50
Kendric Oyewole	0.0% · 0 of 1	0.0% · 0 of 1	–	–	0.0% · 0 of 1	0.00
TEAM	**50.0%**	**66.7%**	**34.4%**	**76.0%**	**58.9%**	**0.40**

Small samples are marked: a percentage on fewer than three attempts shows the makes and tries beside it. Effective FG% counts a made three as one and a half makes, so one made three on one shot reads 150%. Free throws per shot is free-throw attempts for each field-goal attempt; it is a rate, not a percentage.

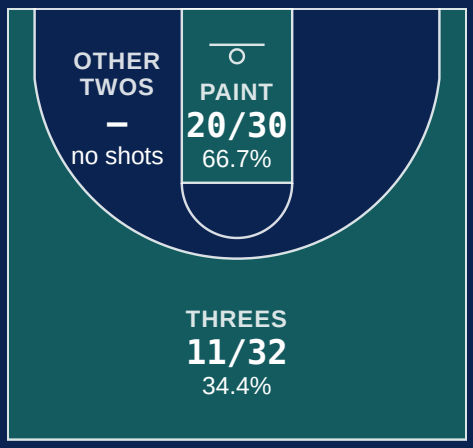

PART 2 · COMPLETE ANALYTICS

ALABAMA: EVERY SHOT, BY ZONE, TYPE AND SHOOTER.

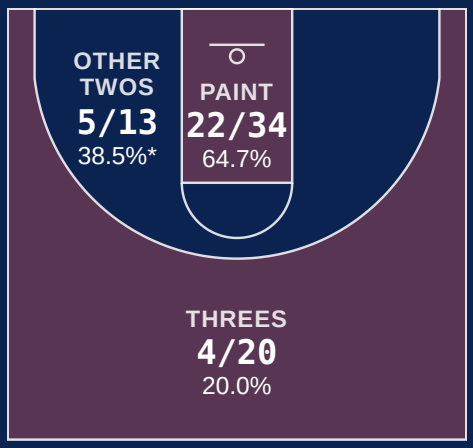

The shots behind Alabama's possessions: where they came from by zone, then by type and by shooter.

WHERE THE SHOTS CAME FROM · ZONES

ALABAMA

OLE MISS

Made / tried and percentage in each zone: the paint, other two-point shots, and threes, from the official play-by-play. Each zone is colored against the other team's same zone: **green** a higher percentage, **red** lower, **yellow** even; a zone where either team took fewer than 10 shots is left uncolored and both its percentages are marked *. The official record names the zone of each shot, not the spot on the floor, so spots within a zone are not drawn.

SHOTS BY TYPE

SHOT	MADE / TRIED	PERCENT
Layups	10/15	66.7%
Dunks	6/7	85.7%
Tip-ins	1/2	50.0% · 1 of 2
Two-point jumpers	3/6	50.0%

TEAM		**19**	**20**	**0.95**	**4**	**2**	**22**

BY HALF

HALF	AST	TO	STL	BLK	FOULS
1st	10	12	3	1	11
2nd	9	8	1	1	11

THE FINDING

- Kyron Ashby led with 5 assists.
- Torian Bascomb had the most turnovers, 5.

WHAT IT MEANS

Alabama had 19 assists on 31 made baskets and 20 turnovers (0.95 for each turnover).

WHAT TO DO

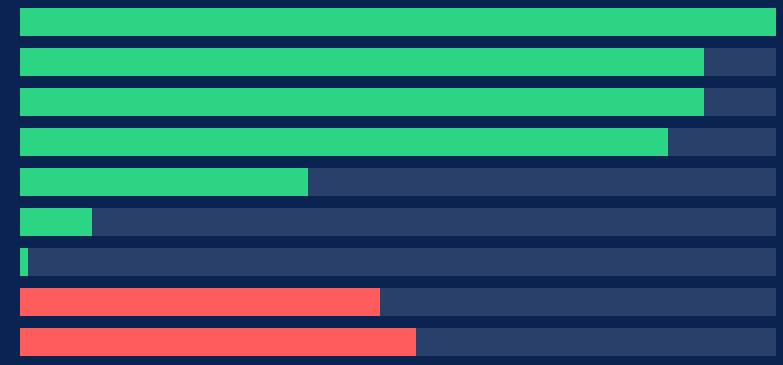

- Film the 20 possessions Alabama gave away (12 on steals): who had the ball and how each one ended.
- Deflections and charges taken are not in the game statistics, so they are not shown.

PART 2 · COMPLETE ANALYTICS

SIX ABOVE ZERO, TWO BELOW.

Each bar is one player's individual PBiR. **Green** added value, **red** cost value, and longer means more. The number at the far right is PBiR per minute (n/p: fewer than 10 minutes).

INDIVIDUAL PBIR

Kyron Ashby	+21	+0.68
Gage Fairley	+19	+0.76
Wade Corby	+19	+0.66
Darrious Harper-Lowden	+18	+0.95
Easton Rowland	+8	+0.31
Dashawn Mortimer	+2	+0.10
Cedric Boyce	0	0.00
Torian Bascomb	−10	−0.43
Kendric Oyewole	−11	−0.85

THE FINDING

- Six players produced positive value, two cost more than they returned, and one finished at zero (break-even).
- Team: +66.

WHAT IT MEANS

Kendric Oyewole cost the most, −11 (turnovers were his largest negative area).

WHAT TO DO

Per-minute rates are published only where minutes make them fair.

PART 2 · COMPLETE ANALYTICS

EVERY ALABAMA LINEUP: 19 FIVES, MOST MINUTES FIRST.

Each lineup: the five players, then its minutes and what happened while it played. “Short sample” marks lineups under three minutes — shown as they happened, not as a trend. A lineup at 0.0 minutes was on the floor for under three seconds (a substitution between free throws, for example); points scored then still count. Fast-break, second-chance and off-turnover points are not measured by lineup.

		ALABAMA		OLE MISS

Possessions won: of the possessions this five was on the floor for (both teams’), how many it won — a score on offense or a stop on defense. Points and points per possession: each team’s points on those possessions, and per time it had the ball; a possession and its points belong to the five on the floor when it ended. Margin is the scoreboard play by play, so the two can differ when the five changed during a possession.

Margin is the scoreboard play by play, so the two can differ when the five changed during a possession.

PART 2 · COMPLETE ANALYTICS

ALABAMA WON BY 8. THE BIGGEST EDGE: POINTS FROM THREES.

> Both teams side by side, each column named. The scoring-sources table compares points from each source; the sources overlap, so the gaps are separate measures and are not added together.

BY HALF

HALF	SCORE Alabama–Ole Miss	MARGIN	ALABAMA FG%	OLE MISS FG%	ALABAMA TURNOVERS	OLE MISS TURNOVERS	ALABAMA REBOUNDS	OLE MISS REBOUNDS

SCORING SOURCES · POINTS

SOURCE	ALABAMA	OLE MISS	EDGE
Points from threes	33	12	+21
Points off turnovers	9	23	−14
Points from twos	40	54	−14
Second-chance points	20	10	+10
Points in the paint	40	44	−4
Fast-break points	18	19	−1
Free-throw points	19	18	+1

THE FINDING

- Alabama won by 8.
- Points from threes: Alabama 33, Ole Miss 12; Second-chance points: Alabama 20, Ole Miss 10; Free-throw points: Alabama 19, Ole Miss 18.

WHAT IT MEANS

- These are the measured places where the margin came from.
- They overlap (a three after a turnover counts as both), so they explain the game together, not as a sum.

WHAT TO DO

Ole Miss's best categories, 14 each, were points off turnovers (Alabama 9, Ole Miss 23) and points from twos (Alabama 40, Ole Miss 54).

PART 2 · COMPLETE ANALYTICS

EVERY MEASURE, SIDE BY SIDE.

Every head-to-head measure in the certified record. Each gap is on its own scale (points, counts, percentages); gaps are separate measures, never added together, and no single gap proves what caused the result.

PART 2 · COMPLETE ANALYTICS

EVERY POSSESSION, IN ORDER: 161.

The whole game, possession by possession, from the official play-by-play: who had the ball, when it started (half and game clock), how it started, what happened inside it, how it ended, the points, and the score after it. Use the game clock to find any possession on film.

T5	Colt Fry	+3	8	3	+2	made threes

WHERE OLE MISS HAD THE EDGE

	OLE MISS	ALABAMA
Points off turnovers	23	9
Points from twos	54	40
Points in the paint	44	40
Fast-break points	19	18

WHERE ALABAMA LIMITED OLE MISS

	OLE MISS	ALABAMA
Points from threes	12	33
Second-chance points	10	20
Free-throw points	18	19

THE FINDING

- Kirby Whittemore led Ole Miss with 25 points; Jace Wolfe led its PBiR at +32.
- Ole Miss's most-used five (Wolfe · Villar · Benhamida · Faleolo · Pickard) was +8 in 7.7 minutes.

THE EVIDENCE

Ole Miss shot 49.3% effective to Alabama's 58.9%, with 10 turnovers to Alabama's 20 and 28 rebounds to Alabama's 45.

WHAT IT MEANS

- Ole Miss's edges came from points off turnovers (23 to 9) and points from twos (54 to 40).
- *Coaching read:* this is what they did in this game, not a scouting report; a scouting report is built from several games.

WHAT TO DO

- Kirby Whittemore and Jace Wolfe on film: how the points and value came.
- Ole Miss's lineups and with-and-without pages follow.

PART 3 · THE OPPONENT

KIRBY WHITTEMORE SCORED 25. JACE WOLFE LED IN VALUE.

Ranked by **individual PBiR** — what he did himself. **Team margin** is the scoreboard while he was on the floor, shared by all five. Helped / hurt most: what added or cost the most (words, not points). Full explanation: Reference.

+32 **MOST VALUABLE · WOLFE** 15 points, 2nd in scoring	**+71** **TEAM PBiR** seven above zero, three below	**84** **POINTS** 31 of 67 from the field	**+1** **BEST TEAM MARGIN WHILE PLAYING · FALEOLO** in his 22 minutes (players with 10+ minutes)

EVERY PLAYER, RANKED BY INDIVIDUAL PBIR

#	PLAYER	PBiR	PER POSS IN ON	PER MIN	MIN	PTS	POSS IN ON	TEAM WON / POSS ON	HELPED MOST	HURT MOST
1	Jace Wolfe	+32	+0.94	+0.86	37	15	34	75/148	assists	missed twos

	TEAM	+71				84		80/161		

Per poss in on: his PBiR divided by the possessions the play-by-play records him in (poss in on; * under 10). Team won / poss on: of both teams' possessions while he was on the floor, how many his team won — a team result, not his grade.

THE FINDING

- Jace Wolfe led Ole Miss at +32.
- The top scorer, Kirby Whittemore (25 points), finished 3rd in value.

THE EVIDENCE

- Points are one part of a player's game.
- Jace Wolfe produced the most value with 15 points — assists were his strongest area; Kirby Whittemore scored 25 points but missed threes took value back.

WHAT IT MEANS

- Team PBiR +71 was built by seven players above zero against three below.
- A total carried by many positive grades and a total carried by one or two players are different teams to coach, even at the same number.

WHAT TO DO

- Jace Wolfe: individual PBiR +32, team margin while playing −2; Leonardo Villar: individual PBiR +19, team margin while playing −3; Kirby Whittemore: individual PBiR +18, team margin while playing −18; Kit Drysdale: individual PBiR +6, team margin while playing −13.
- The two numbers measure different things.

PART 3 · THE OPPONENT

JACE WOLFE WAS IN ON THE MOST POSSESSIONS: 34.
LEONARDO VILLAR PRODUCED THE MOST EACH TIME: +1.19 PBIR PER POSSESSION.

Ole Miss's players, by the possessions the play-by-play puts them in — like carries: how many he had a hand in, and what he did with them. The team's result on those possessions is beside it.

JACE WOLFE

- Recorded actions on **34** of the 148 possessions he was on the floor for.
- Offense: in on 22, the team scored on 16 (73%); 15 ended on his shot, free throws or turnover.
- Defense: in on 12, 9 ended scoreless (75%).
- What he did: 6 made baskets, 3 made free throws, 7 assists, 1 offensive rebound, 4 defensive rebounds, 4 steals, 1 turnover, 4 fouls.
- PBiR **+32** on 34 possessions = **+0.94** each.

SIONE FALEOLO

- Recorded actions on **21** of the 89 possessions he was on the floor for.
- Offense: in on 13, the team scored on 8 (62%); 13 ended on his shot, free throws or turnover.
- Defense: in on 8, 5 ended scoreless (63%*).
- What he did: 5 made baskets, 2 made free throws, 1 offensive rebound, 4 defensive rebounds, 4 fouls.
- PBiR **+3** on 21 possessions = **+0.14** each.

HOLLIS PICKARD

- Recorded actions on **21** of the 123 possessions he was on the floor for.
- Offense: in on 16, the team scored on 7 (44%); 15 ended on his shot, free throws or turnover.
- Defense: in on 5, 2 ended scoreless (40%*).
- What he did: 4 made baskets, 3 made free throws, 1 assist, 1 offensive rebound, 2 defensive rebounds, 1 steal, 2 fouls.
- PBiR **−3** on 21 possessions = **−0.14** each.

KIRBY WHITTEMORE

- Recorded actions on **20** of the 98 possessions he was on the floor for.
- Offense: in on 17, the team scored on 11 (65%); 17 ended on his shot, free throws or turnover.
- Defense: in on 3, 2 ended scoreless (67%*).
- What he did: 8 made baskets (3 threes), 6 made free throws, 2 offensive rebounds, 1 steal, 1 block, 2 turnovers, 1 foul.
- PBiR **+18** on 20 possessions = **+0.90** each.

* fewer than 10 possessions — too few to read as a pattern.

OLE MISS PLAYER POSSESSIONS · CONTINUED

Colt Fry	18 · 17	**1**	1	1	1 (100%)*	0	—	+3	+3.00*

Involved: possessions in which the official play-by-play records an action by him (a shot, free throw, assist, rebound, steal, block, turnover or foul), each counted once. Used: possessions that ended on his shot, free-throw trip or turnover. Team scored / stop: the team's result on the possessions he was part of — not his personal credit. Passes that are not assists, screens and box-outs are not in the record. PBiR per possession: his PBiR divided by the possessions he was involved in (graded value, not points). Headlines and findings name only players with 10 or more possessions.

* fewer than 10 possessions — too few to read as a pattern.

THE FINDING

- Jace Wolfe was in on 34 possessions, the most on Ole Miss.
- Kirby Whittemore used the most: 17 ended on his shot, free throws or turnover.

THE EVIDENCE

- Leonardo Villar produced the most graded value per possession he was in: +1.19 (+19 PBiR on 16).
- The team scored most often with Jace Wolfe in the play: 73% of 22.
- It got a stop most often with Jace Wolfe in the play: 75% of 12.

WHAT IT MEANS

- Being on the floor is not being in the play: these counts show who the game went through.
- Scored and stop rates are the team's result on those possessions, not what he caused.

WHAT TO DO

- Ole Miss's game went through Jace Wolfe (34 possessions); Leonardo Villar produced the most each time he was in the play.
- Each card says what the play-by-play has him doing — what to look for on film.

PART 3 · THE OPPONENT

OLE MISS: EVERY PLAYER'S COMPLETE LINE.

Most minutes first. "5/15" means 5 made of 15 tried. Team margin while playing is the scoreboard while that player was on the floor. The team row can show more rebounds or turnovers than the players add up to: the game statistics credit some to the team, not a player (1 rebound in this game).

SCORING AND SHOOTING

PLAYER	MIN	PTS	FIELD GOALS	TWOS	THREES	FREE THROWS	PAINT PTS	TEAM MARGIN WHILE PLAYING	POSS ON FLOOR

TEAM	**46.3%**	**57.4%**	**20.0%**	**75.0%**	**49.3%**	**0.36**

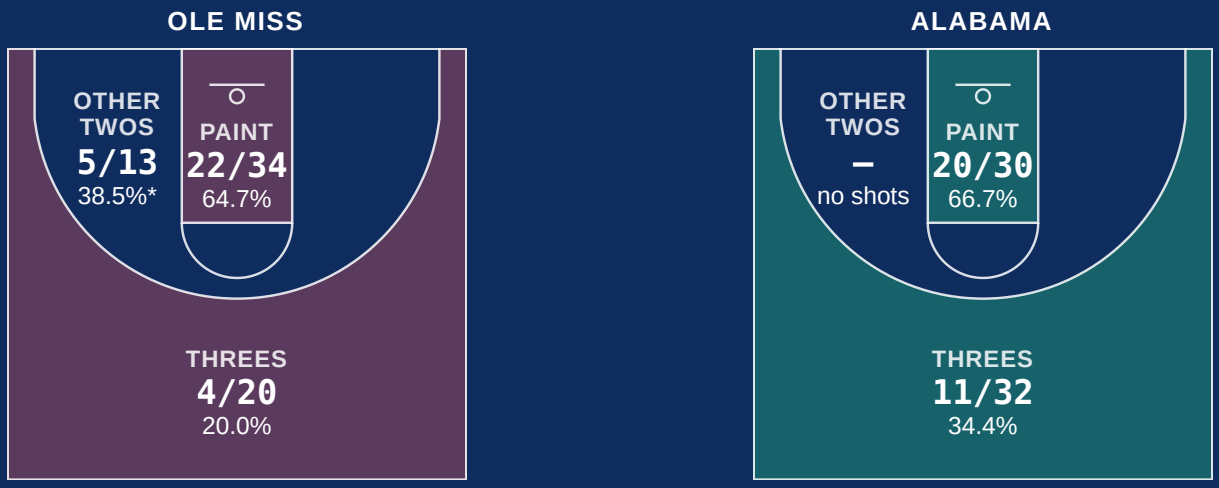

Small samples are marked: a percentage on fewer than three attempts shows the makes and tries beside it. Effective FG% counts a made three as one and a half makes, so one made three on one shot reads 150%. Free throws per shot is free-throw attempts for each field-goal attempt; it is a rate, not a percentage.

PART 3 · THE OPPONENT

OLE MISS IN THE PAINT: 22 OF 34. THREES: 4 OF 20.

Every Ole Miss field-goal attempt by zone, by type and by shooter. Type, zone and each player's field goals are verified against each other before this page prints.

WHERE THE SHOTS CAME FROM · ZONES

Made / tried and percentage in each zone: the paint, other two-point shots, and threes, from the official play-by-play. Each zone is colored against the other team's same zone: **green** a higher percentage, **red** lower, **yellow** even; a zone where either team took fewer than 10 shots is left uncolored and both its percentages are marked *. The official record names the zone of each shot, not the spot on the floor, so spots within a zone are not drawn.

BY TYPE

SHOT	MADE / TRIED	PERCENT
Layups	12/19	63.2%
Dunks	3/3	100.0%

Javion Tibbets	0/1	–	–	–	–	0/1

THE FINDING Ole Miss made 22 of 34 in the paint, 5 of 13 other twos and 4 of 20 threes.

WHAT IT MEANS Shot type and area show what kind of looks Ole Miss got and finished against Alabama — the shape of its offense, not its execution.

WHAT TO DO Their two-point jumpers: 11 of 24.

PART 3 · THE OPPONENT

OLE MISS LOST THE GLASS, 28 TO 45. OLE MISS KEPT 8 POSSESSIONS ALIVE FOR 10 POINTS.

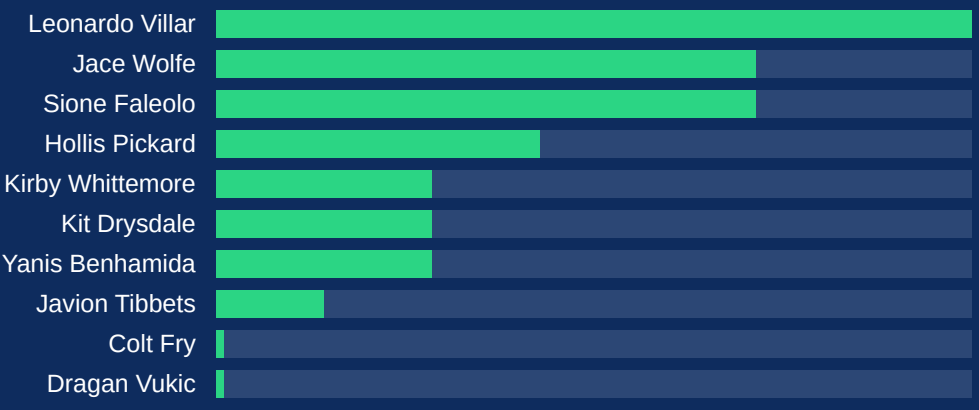

Each bar is one player's total rebounds; the numbers at the right are offensive / defensive. Offensive % is the share of its own missed shots Ole Miss got back.

POSSESSIONS EXTENDED AND FINISHED

	OLE MISS
Possessions extended · got a second chance (offensive rebound)	8 of 80 (10%)
Points on those second-chance possessions	10
Other team's possessions finished with an Ole Miss rebound	19 of 81
Other team's possessions extended (second chances allowed)	10 → 20 points

28	9	19	7
TOTAL REBOUNDS	**OFFENSIVE**	**DEFENSIVE**	**MOST · VILLAR**
45 for the other team	22.5% of its own misses	57.6% of the other team's misses	1 offensive, 6 defensive

REBOUNDS BY PLAYER · TOTAL, THEN OFFENSIVE / DEFENSIVE

OLE MISS REBOUNDING · CONTINUED

REBOUNDING BY HALF

HALF	OFFENSIVE	DEFENSIVE	TOTAL	OFFENSIVE %	DEFENSIVE %
1st	3	11	**14**	16.7%	55.0%
2nd	6	8	**14**	27.3%	61.5%
GAME	**9**	**19**	**28**	**22.5%**	**57.6%**

THE FINDING

- Leonardo Villar led with 7 rebounds.
- PBiR from the glass: Leonardo Villar +19 (defensive rebounds).
- Ole Miss got back 22.5% of its own misses and 57.6% of the other team’s.

THE EVIDENCE

- Ole Miss lost the glass by 17.
- Offensive rebounds kept 8 possessions alive, worth 10 points.
- Its offensive rebounding was lowest in the 1st half (16.7%) and highest in the 2nd half (27.3%).

WHAT IT MEANS

- Each rebound is one possession kept or taken away; the second-chance points show what the offensive ones were worth.
- A rebound total is a count; the PBiR line above says whose graded value leaned on the glass.

WHAT TO DO

In the 1st half, Ole Miss got back only 55.0% of the other team’s misses: who was on the floor, and which misses were lost.

PART 3 · THE OPPONENT

10 ASSISTS, 10 TURNOVERS. 12 STEALS, 3 BLOCKS.

> Assists for each turnover: above 1.00 a player created more than he gave away. It counts recorded assists against turnovers; it does not say the two are worth the same.

10	10	1.00	15
ASSISTS on 31 made field goals	**TURNOVERS** 13% of its 80 possessions given away	**ASSISTS FOR EACH TURNOVER**	**STEALS + BLOCKS**

EVERY PLAYER

PLAYER	MIN	AST	TO	AST PER TO	STL	BLK	FOULS
Jace Wolfe	37	**7**	1	7.00	4	0	4

BY HALF

HALF	AST	TO	STL	BLK	FOULS
1st	4	5	8	1	8
2nd	6	5	4	2	11

THE FINDING

- Jace Wolfe led with 7 assists.
- Yanis Benhamida had the most turnovers, 5.

WHAT IT MEANS

Ole Miss had 10 assists on 31 made baskets and 10 turnovers (1.00 for each turnover).

WHAT TO DO

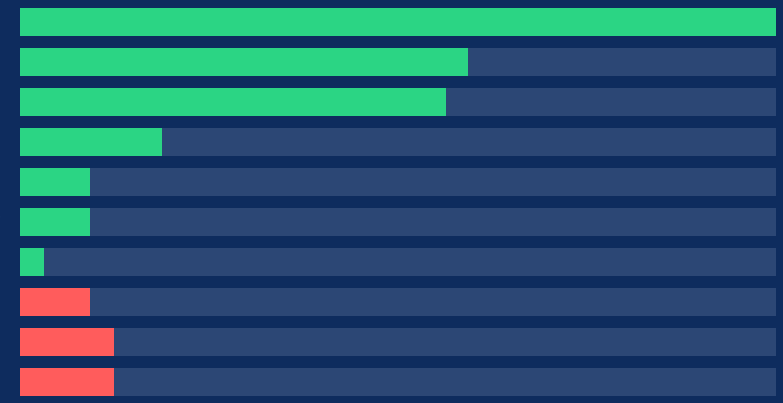

- Film the 10 possessions Ole Miss gave away (4 on steals): who had the ball and how each one ended.
- Deflections and charges taken are not in the game statistics, so they are not shown.

PART 3 · THE OPPONENT

SEVEN ABOVE ZERO, THREE BELOW.

Each bar is one player's individual PBiR. **Green** added value, **red** cost value, and longer means more. The number at the far right is PBiR per minute (n/p: fewer than 10 minutes).

INDIVIDUAL PBIR

Jace Wolfe	+32	+0.86
Leonardo Villar	+19	+0.73
Kirby Whittemore	+18	+0.75
Kit Drysdale	+6	+0.35
Sione Faleolo	+3	+0.14
Colt Fry	+3	n/p
Dragan Vukic	+1	n/p
Hollis Pickard	−3	−0.10
Yanis Benhamida	−4	−0.15
Javion Tibbets	−4	n/p

THE FINDING

- Seven players produced positive value, three cost more than they returned.
- Team: +71.

WHAT IT MEANS

Yanis Benhamida and Javion Tibbets cost the most, −4 each.

WHAT TO DO

Per-minute rates are published only where minutes make them fair.

PART 3 · THE OPPONENT

EVERY OLE MISS LINEUP: 18 FIVES, MOST MINUTES FIRST.

Each lineup: the five players, then its minutes and what happened while it played. “Short sample” marks lineups under three minutes — shown as they happened, not as a trend. A lineup at 0.0 minutes was on the floor for under three seconds (a substitution between free throws, for example); points scored then still count. Fast-break, second-chance and off-turnover points are not measured by lineup.

Possessions won: of the possessions this five was on the floor for (both teams’), how many it won — a score on offense or a stop on defense. Points and points per possession: each team’s points on those possessions, and per time it had the ball; a possession and its points belong to the five on the floor when it ended. Margin is the scoreboard play by play, so the two can differ when the five changed during a possession.

Possessions won: of the possessions this five was on the floor for (both teams'), how many it won — a score on offense or a stop on defense. Points and points per possession: each team's points on those possessions, and per time it had the ball; a possession and its points belong to the five on the floor when it ended. Margin is the scoreboard play by play, so the two can differ when the five changed during a possession.

PART 3 · THE OPPONENT

OLE MISS: THE SCOREBOARD WITH AND WITHOUT EACH PLAYER.

ON is the team margin while that player was on the floor; OFF is the team margin while he sat; the last number is the difference. It is the raw scoreboard — not adjusted for minutes, teammates, opponents or pace (possessions are not counted) — and it is not a grade of the player. A player who sat while the starters built a lead shows a large negative difference for that reason alone; “short minutes” marks players under five minutes.

PLAYER	MIN ON	MARGIN ON	MIN OFF	MARGIN OFF	DIFFERENCE	POSS WON · ON / OFF
#00 Jace Wolfe	36.5	−2	3.5	−6	+4	51% / 38%
#23 Hollis Pickard	29.8	0	10.2	−8	+8	51% / 45%
#6 Yanis Benhamida	25.8	−9	14.2	+1	−10	49% / 51%
#1 Leonardo Villar	25.6	−3	14.4	−5	+2	49% / 50%
#3 Kirby Whittemore	24.4	−18	15.6	+10	−28	44% / 59%
#13 Sione Faleolo	22.2	+1	17.8	−9	+10	54% / 44%
#10 Kit Drysdale	17.0	−13	23.0	+5	−18	46% / 53%
#31 Colt Fry	7.9	+2	32.1	−10	+12	54% / 48%
#7 Javion Tibbets	5.8	−1	34.2	−7	+6	48% / 50%
#14 Dragan Vukic	5.2	+3	34.9	−11	+14	55% / 49%

THE FINDING

Among players with 10+ listed minutes, the largest positive raw on/off difference was Sione Faleolo, +10 (22.2 minutes on); the largest negative was Kirby Whittemore, −28 (24.4 minutes on).

THE EVIDENCE

- Seven players had a positive raw on/off difference and three a negative one.
- For Hollis Pickard, Kit Drysdale and Kirby Whittemore the on/off sign and the individual PBiR sign disagree — the scoreboard moved one way while their own PBiR pointed the other.

WHAT IT MEANS

- On/off is a team scoreboard comparison, not a player grade: it depends on teammates, opponents and game circumstances as much as on him.
- Individual PBiR describes what he did himself.
- Read them together; where they disagree is where film is most useful.

WHAT TO DO

For any player whose two signs disagree, the key-lineups page shows which fives he shared the floor with.

REFERENCE

TWO NUMBERS RUN THROUGH THIS REPORT.

1 · INDIVIDUAL PBIR — WHAT HE DID HIMSELF

PBiR grades every action a player made himself: made and missed shots, rebounds, assists, steals, blocks, turnovers and fouls. Good actions add, bad ones subtract. Positive means he returned more than he cost. Team PBiR is the sum of its players.

Example: Kyron Ashby, **+21**.

2 · TEAM MARGIN WHILE PLAYING — THE SCOREBOARD

How much his team outscored the other team, or was outscored, while he was on the floor (often called plus-minus). All five players on the floor share it. It tells you how his minutes went, not what he did in them.

Example: Kyron Ashby, **−3** in 31 minutes.

3 · WHY THEY CAN DISAGREE — FROM THIS GAME

Kirby Whittemore (Ole Miss) was **−18** on the scoreboard in 24 minutes but **+18** in PBiR. His team lost those minutes, but his own actions returned more than they cost. Both numbers are true; they measure different things.

4 · PER MINUTE AND N/P

PBiR per minute is PBiR divided by minutes, so a starter and a bench player can be compared. **n/p** (not published) means he played fewer than 10 minutes, too few for a per-minute rate to be fair.

5 · SMALL SAMPLES

Every number is printed. A shooting percentage on fewer than three attempts shows the makes and tries beside it; a lineup or on/off figure from a few minutes carries a short-minutes note. Read those as what happened, not as a trend.

HOW TO READ THIS REPORT · CONTINUED

POSSESSIONS — THE FOUNDATION

Every possession is counted from the official play-by-play: it starts when a team gains the ball and ends with a score, a turnover, the other team's rebound or the end of a half. The offense wins a possession by scoring; the defense wins it with a stop. Points per possession is points divided by possessions. A player's possessions are counted two ways, and the page says which. **On the floor:** the team's possessions while he played — a team result, shared by all five. **Involved (the Player possessions page and the board's Poss in on):** the possessions in which the play-by-play records an action by him, each counted once — his carries. Used: the ones that ended on his shot, free throws or turnover. PBiR per possession is his PBiR divided by the possessions he was involved in. His PBiR is his own either way. A five is credited the same way: the possessions that ended while it was on the floor, with their points; its scoreboard margin is counted play by play.

6 · HOW THIS REPORT IS ORGANIZED

Every sentence in Part 1 is chosen by a fixed rule from the certified game record; "Coaching read" marks interpretation.

Part 1 — the coaching recap: Alabama's game: the possession battle, the PBiR story of the game, what decided the game, game flow and runs, offense, defense, rebounding, player possessions, points by half, the board, key five-man lineups, starters and bench, with and without, and what worked, what needs attention and what's next. **Part 2 — Alabama in full:** every player's full line, playmaking, value, every lineup, and every head-to-head measure. **Part 3 — the opponent:** Ole Miss at a glance, then Ole Miss's full pages. **Reference:** this page, the grade scale, what the report cannot show, and the glossary.

Navy pages are Alabama; lighter navy pages are Ole Miss, the opponent. The badge at the top right always names the team. **Green** is good, **red** is bad and **yellow** is even: on every bar and number that compares, the better side is green and the worse side red.

REFERENCE

HOW GOOD WAS THAT PBIR?

PBiR has no fixed maximum; like points, the real limit is the minutes and possessions in a game. Grades describe where a performance falls among certified college performances with comparable playing time. Until enough games from enough programs are on file, grades do not print — the boards show the number, the rate and the rank.

THE GRADE LADDER · THE SAME FOR TOTAL PBIR AND PBIR PER MINUTE

GRADE	WHERE THE PERFORMANCE FALLS
EXCELLENT	Top 5% of certified performances at this level.
VERY GOOD	80th to 95th percentile.
GOOD	60th to 80th percentile.
AVERAGE	40th to 60th percentile.
BELOW AVERAGE	Positive, but below the 40th percentile.
BREAK-EVEN	Exactly zero — he returned what he cost.
COST MORE THAN HE PRODUCED	Below zero.

WHERE THIS GAME'S NUMBERS FELL

Highest: Jace Wolfe (Ole Miss), +32. **Best rate:** Darrious Harper-Lowden (Alabama), +0.95 per minute. **Middle of the 19 graded players:** +3. **Lowest:** Kendric Oyewole (Alabama), −11. Thirteen finished above zero, five below, one at zero.

Once set, a calibration is frozen for the season, so the same performance earns the same grade in October and in January. High school, NBA and WNBA are calibrated separately.

REFERENCE

WHAT THIS REPORT CANNOT SHOW.

These measures need film review or data the official record does not hold. They are not shown; where the record holds part of one, the row says what is shown instead.

NOT AVAILABLE	WHY
Spot-by-spot shot locations	The official record names each shot's zone — the paint, another two or a three — not the spot on the floor. The zone chart shows what the record holds.
Contested or open, catch-and-shoot, off the drive	These need film review of every shot.
Deflections	Tipped passes and dribbles are not counted in the game statistics.
Charges taken	The game statistics record the offensive foul; they do not credit the defender.
Who drew a foul without free throws · on-ball or off-ball fouls	The official play-by-play names the player who fouled, not always the player fouled, and never where the ball was.
Set plays	Sideline and baseline out-of-bounds sets need film review.

EVERY TERM, IN PLAIN WORDS.

TERM	WHAT IT MEANS
Possession	The time a team has the ball: from gaining it to a score, a turnover, the other team rebounding its miss, or the end of a half. An offensive rebound keeps the same possession. Counted from the official play-by-play.
Possessions won	Possessions a team scored on, plus the other team's possessions it held scoreless (stops).
Points per possession	Points divided by the times a team had the ball.
Stop	A possession of the other team that ended with no points.
Second chance	A possession that got an offensive rebound and kept going.
Possessions on the floor	The team's possessions while a player was playing. A team result, shared by all five.
Involved · Poss in on	Possessions in which the official play-by-play records an action by the player (a shot, free throw, assist, rebound, steal, block, turnover or foul), each counted once. Passes that are not assists, screens and box-outs are not in the record.
Used	Possessions that ended on the player's shot, free-throw trip or turnover.

GLOSSARY · CONTINUED

TERM	WHAT IT MEANS
PBiR per possession	A player's individual PBiR divided by the possessions he was involved in: graded value, not points. Marked * under 10 possessions.
Individual PBiR	PlayBack Intelligence Report score: every graded action a player produced himself, credited and charged, on one scale. Positive means he returned more than he cost. Team PBiR is the sum of its players.
PBiR per minute	Individual PBiR divided by minutes. Published only for players with 10 or more minutes in this game.
n/p	Not published — too few minutes for a per-minute rate to be fair.
Team margin while playing	The scoreboard while a player or lineup was on the floor: how much the team outscored the other team, or was outscored (often called plus-minus). Shared by all five on the floor; not a grade.
On / off	The team margin with a player on the floor, the margin while he sat, and the difference. Raw scoreboard, not adjusted for minutes, teammates, opponents or pace.
Helped / hurt his grade most	The part of a player's own game that added the most to his PBiR, and the part that cost him the most. Words, not points.
Lineup	Five players on the floor together.
Lineup points · per possession	Each team's points on the possessions credited to a five, and per possession: a possession and its points belong to the five on the floor when the possession ended. Possessions won counts both teams' possessions with that five on the floor.
Shot zones	The paint, other two-point shots and threes, from the official play-by-play. The record names each shot's zone, not its spot on the floor.
Scoreboard margin	Points play by play while a five or a player was on the floor (plus-minus). It can differ from lineup points for · against when the five changed during a possession.
Short sample · short minutes	A figure from a few minutes or a few attempts. It is what happened, shown as it happened — not a trend.
Run	Eight or more points in a row by one team, with no points by the other in between.

GLOSSARY · CONTINUED

TERM	WHAT IT MEANS
Five-minute stretch	Each half cut into five-minute pieces; the score in each piece.
Effective FG%	Field-goal percentage that counts a made three as one and a half makes. Example: 1 made three on 1 shot = 150%.
Free throws per shot	Free-throw attempts for every field-goal attempt. A rate, not a percentage.
Fast break	Points scored in transition, before the defense is set.
Second chance	Points scored after an offensive rebound.
Points off turnovers	Points scored after the other team gave the ball away.
Paint	Points scored inside the lane.

TERM	WHAT IT MEANS
Offensive % / defensive %	Offensive %: the share of a team’s own missed shots it rebounded. Defensive %: the share of the other team’s missed shots it rebounded.
Starters / bench	Starters are the five who started; the bench is everyone else who played.
Player-minutes	Minutes added up across players. Five are on the floor at once, so a 40-minute game holds 200 player-minutes for each team.
Exhibition	A game outside the official season, graded with the same PBiR scoring. It counts toward no ranking, season total or record.
From the record	A measured fact from the certified game record.
Scouting read	Interpretation: what a coach preparing for this team might do with a measured fact. Labelled wherever it appears.
Bar	The fixed figure a finding has to reach in this game to become a priority or an opening (for example, 40% of shots from three).
Season / national rankings	A team’s or player’s standing across certified regular-season games. An exhibition never counts toward them.
College Game Recap	A Playback Intelligence report: every number is verified against the certified game totals before it is printed.
